

DAVIESS COUNTY TRASH FOR CASH PROGRAM GENERAL INFORMATION

In 2007, Daviess County Fiscal Court through its Solid Waste Department created the Trash for Cash program, a fundraiser for non-profit organizations.

The Kentucky Division of Waste Management provides Litter Abatement Grants each year to counties that express interest to help clean public roadways.

Here are a few of the important components of the County's TFC program.

- Eligible groups must be federally recognized as 501 (c) (3) non-for profit organizations located within the boundaries of Daviess County, Kentucky.
- Approved groups may schedule cleanups beginning February 1st and ending December 1st of the eligible calendar year.
- Non-Profit groups that clean roadways in Daviess County receive a minimum of \$100 per mile rate @ 5 miles. The rate and miles will vary each year depending on grant funds received from the Commonwealth.
- The County will provide road caution signs, safety vests, trash bags, gloves, water and free disposal.
- All approved groups must sign a Contract and Release of Liability Agreement, Release of Consent Agreement and adhere to Safety Education Requirements. Completed forms must be submitted to our office located at 7772 Hwy 815 Owensboro, KY.
- Group Leaders can choose a date that works best for their groups. The Solid Waste Coordinator will select the necessary roads to be cleaned.
- Registration is November 1st of every year. Applications are posted on our website at [www.daviessky.org/solid waste](http://www.daviessky.org/solid%20waste).
